

# ViolationAdmin

ViolationAdmin uses innovative mobile technology to efficiently track, manage and record violations to support your parking environment.

✓ Improve Accuracy

✓ Real-time Access

✓ Identify Scofflaw

✓ LPR Integration

## Manage More Efficiently

Your enforcement team will be better equipped to identify parking violations, scofflaws, and manage the ticketing process with our easy access app for Android mobile devices and/or smart phones. Add in our PL8RDR technology and license plate recognition solution and, your patrol officers would be able to patrol 1000 plus vehicles per hour. Do the job better and faster!

## Key Features

- Real-time access to database
- Android app for mobile violations
- Auto-chalking shared to all devices
- GPS mapping for hotspots
- Easily attach images
- Online payments
- Built-in appeals process
- Comprehensive reporting

## Benefit your Operation

- Significantly lower in-field errors with real-time access to database
- Schedule patrols to target violation hotspots and times based on statistical reporting
- Improve scofflaw identification with automatic notifications in the field of repeat offenders
- Reduce appeals with linked photo evidence, attach up to 10 images per citation
- Minimize customer interaction with built in online appeal process
